DESCRIPTION

PLUS WD3 scanner, lightweight and space-saving

The **PLUS WD3 Bluetooth badge scanner** is a small scanner with a compact card-like design. The device offers high performance and can be handled like any other scanner or worn around the neck with a lanyard.

Lightweight and space-saving design ensures less effort and a seamless workflow to optimise productivity.

High technology for voluminous scans

Equipped with **2D Megapixel technology**, the PLUS WD3 is the ideal solution for scanning high-density barcodes displayed on any surface. In addition, **Acuscan** can be set on the PLUS WD3, so the laser cross aimer only decodes the exact barcode you want it to

Complete solution

When paired with other devices, such as the **PLUS WD1** scanner, it provides a complete solution that allows items to be scanned while performing other tasks simultaneously.
